

Welcome to the FCC Community Page!

Here you can learn about upcoming events, find ways to connect, and discover ways to serve.

Our Online Community Guidelines

What are the guidelines for use of Our Online Community?

Please protect the privacy of fellow members! Violating any of these guidelines will result in blocked access.

By becoming an Online Community Member you agree to the following rules of use:

- The Online Community is intended for personal and ministry use. It is not for solicitation of any kind. **Do not use** it for business purposes or for other groups, ministries, etc. outside of the First Christian community.
- **Do** protect the privacy of members by not giving their phone number etc., to others outside of Our Online Community. If you would like someone's number and they are "unlisted", please ask them directly. FCC will not give out this information without prior consent. Our leaders use this private information with care.
- **Do not** send emails that are not necessary or requested, e.g. jokes, stories, petitions, etc. Use Our Online Community with care and courtesy for personal and friendly communication. Even if it's interesting, funny or important, do not send unsolicited information. Do not add members to email lists outside Our Online Community without prior consent
- Members who engage in discussions are not to "slam" other groups, churches or organizations or attempt to solicit members for outside groups or organizations. Keep the Online Discussions and emails personal, positive and profitable. Discussions will be monitored.
- Online Members who become inactive at First Christian Church or who do not follow these guidelines and/or abuse Our Online Community, will have their login access blocked.
- Members are to inform the web administrator of any problems so a resolution can be found. Kathy Rentsch, our administrator, can be contacted at kathy@fccnewphila.org.

What is the Online Community?

As an active member or friend of First Christian Church, you are welcome to use and become part of Our Online Community at <https://fccnewphila.ccbchurch.com>. When you log in, you will be able to see your own profile information, the groups you are participating in, the positions you hold, and events you might be interested in. You will be able to easily communicate with other members, and much more! You can update your profile information and make sure that our records are correct, and fill in some of the "fun" information so that others can get to know you better. We hope you enjoy the online community!

Is my information private?

While our church website is public, our online community is private. Only those who have login and passwords assigned to them can join in. After your request has been accepted by our administrator, you will be emailed login and password information. All individual information gathered to our database is “listed” until an individual Online Member requests it be “unlisted.” Unlisted information is not seen by anyone beyond the FCC staff and key leaders. We encourage everyone to share your information with our other online community members. This will facilitate community building and encourage increased involvement in the life of the church.

Our Online Community provider, Church Community Builder, is serious about the security of your information. Here is a link detailing their commitment to security:

<http://support.churchcommunitybuilder.com/customer/portal/articles/679871-security>.

How do I use the online community?

The best way to see what Our Online Community is about is to visit the website and use your login and password to “look around.” It works as an up-to-date pictorial directory, personal calendar, church-wide calendar and a communication tool. We encourage you to get better connected by participating in “Discussions” and to look for “Groups” that may be of interest to you. You may also find a place to use your gifts by looking at our volunteer “Positions.” If you decide you don’t want to be part of our community, you can at any time request to be “unlisted” and merely discontinue using it.

The Basic User Walkthrough will help you navigate your way around:
